

# Q-SPD NEWS

## PROWLER

Dive Charter Catamaran

- 42 foot Catamaran built in GRP
- Repowered with twin Cummins 6CTA 8.3 350 Hp @ 2500 rpm (previously running twin KAD44 Duoprops)
- Driving twin Q-SPD SD150 drives with 27" 4 blade Q-SPD Propellers
- Repower was done in Cairns, Australia - delivered under own power to PNG
- Carries 16 divers +2 crew and gear including 45 scuba tanks
- At 14,000kg top speed is an easy 30 Knots

Q-SPD drives were chosen for their efficiency and ability to carry high loads in a commercial application at remote Papua New Guinea. The vessel supports a dedicated dive resort, reliability and simplicity were a major decider in the choice to use Q-SPD – the significant performance at all speeds was a bonus.
